

REET BATRA

Developer Relations / DX Engineer · AI Developer Tooling
reetbatra25@gmail.com | [LinkedIn](#) | [Blog](#) | [GitHub](#) | [Portfolio](#) | +91-9752828991

Technical Skills

Languages: TypeScript, JavaScript, Python, Solidity, Cairo

AI & LLM Engineering: Claude API, DeepSeek API, Vercel AI SDK, LLM Agents, Structured Outputs, Prompt Engineering, Prompt Caching, AST-Based API Extraction

Developer Relations: Developer Advocacy, DX Strategy, Technical Writing, API/SDK Documentation, Tutorials, Video Content, Demo Apps, Public Speaking, Workshops, Developer Onboarding

Frameworks & Tools: React.js, Next.js (App Router), Node.js, FastAPI, NestJS, Tailwind CSS, Neon Postgres, Vercel, Git, GitHub

Community & Growth: Community Building, Open Source, Event Planning, Hackathon Organization, Grants Management, Developer Adoption Metrics

Blockchain & Web3: Starknet, Ethereum, Polygon, Aptos, Smart Contracts, Zero-Knowledge Proofs, Account Abstraction

Work Experience

StarkWare

Jan 2025 – Aug 2025

Ecosystem DevRel Engineer

Remote

- Authored 12+ developer tutorials, demo applications, and video guides integrated into official Starknet documentation, improving developer onboarding completion by 40%. Launched the Starknet Builder Series, expanding developer adoption by 30%.
- Gathered developer feedback via Discord and GitHub and translated pain points into product roadmap input. Contributed to open source Starknet tooling, sample code, and documentation.

DablClub

Sept 2024 – Jan 2025

Developer Relations Engineer

Remote

- Delivered 5+ technical workshops, conference talks, and live demos at global developer events focused on Polygon tooling, driving 25% increase in developer participation and adoption.
- Produced tutorials, demo applications, and code samples to reduce onboarding friction, and relayed community feedback to product and engineering as DX improvements.

Incresco

Dec 2023 – Jun 2024

Software Engineer Intern

Remote

- Integrated Storyblok headless CMS into the EF Academy project end-to-end, building features across the MERN stack, NestJS, Next.js, and TypeScript and improving delivery speed by 15%.

Biconomy

Jul 2023 – Oct 2023

Technical Community Manager Intern

Remote

- Provided developer support and troubleshooting for Biconomy's Account Abstraction SDK, resolving 95% of developer issues within 24 hours.
- Wrote 50+ pages of technical documentation for SDK integration and smart account workflows, cutting developer onboarding time by 25%.

ZKX (StarkCon)

Aug 2022 – Apr 2023

Developer Relations Manager

Remote

- Led StarkCon: 11 events reaching 4,800+ developers, and India's first Cairo community. Managed a \$21,000 grants program and launched a 5-week bootcamp with 600+ students.
- Ran content and email campaigns (30% traffic increase, 58% CTR) and delivered technical talks and live demos at industry events.

Nervos Network

Feb 2022 – Jul 2022

Developer Relations Intern

Remote

- Grew a community of Rust and Substrate developers by 35% through technical content, bootcamps, and developer forums. Authored 8+ blog articles plus code samples and starter kits.

Personal Projects

docsParity | *TypeScript, Next.js, DeepSeek API, Firecrawl* | docsparity.vercel.app

- Detects drift between a codebase and its docs. Extracts the repo's real exported API surface (TypeScript compiler AST, plus Python, Java, Rust, Go), crawls the docs via Firecrawl, and uses JSON-mode structured outputs to rank each mismatch by severity. Returns a deterministic drift score (0–10), a suggested fix, and a one-click GitHub issue.

Deja Vu Agent | *Python, FastAPI, Claude API* | [open source](#)

- A support agent that never answers the same question twice. Claude answers strictly from a local docs corpus, then persists each answer as a git-diffable markdown skill file; repeat questions are served from disk with no model call and no token cost.

Open Money Intel | *Next.js, Claude Sonnet, Vercel AI SDK, Neon Postgres* | openmoney.reetbatra.com

- A live competitive-intelligence dashboard plus a schema-constrained pipeline turning one positioning source-of-truth into six marketing assets per product. Every model call is validated against a typed schema with deterministic fallbacks.

Chronos Gambit | *Move, Aptos*

Winner, Aptos Winter School 2024

Publications & Speaking

Published author on Developer Marketing Alliance. Conference talks at 15+ events globally. Taught 4,800+ developers through workshops and bootcamps.

Education

Vellore Institute of Technology · Bachelor of Technology (B.Tech) in Computer Science

2019 – 2023
